

GANES VALUE GROWTH FUND

The fund has recorded a positive return of 2.38% for January. Twenty-four stocks recorded a positive return, ten a negative return and one was unchanged.

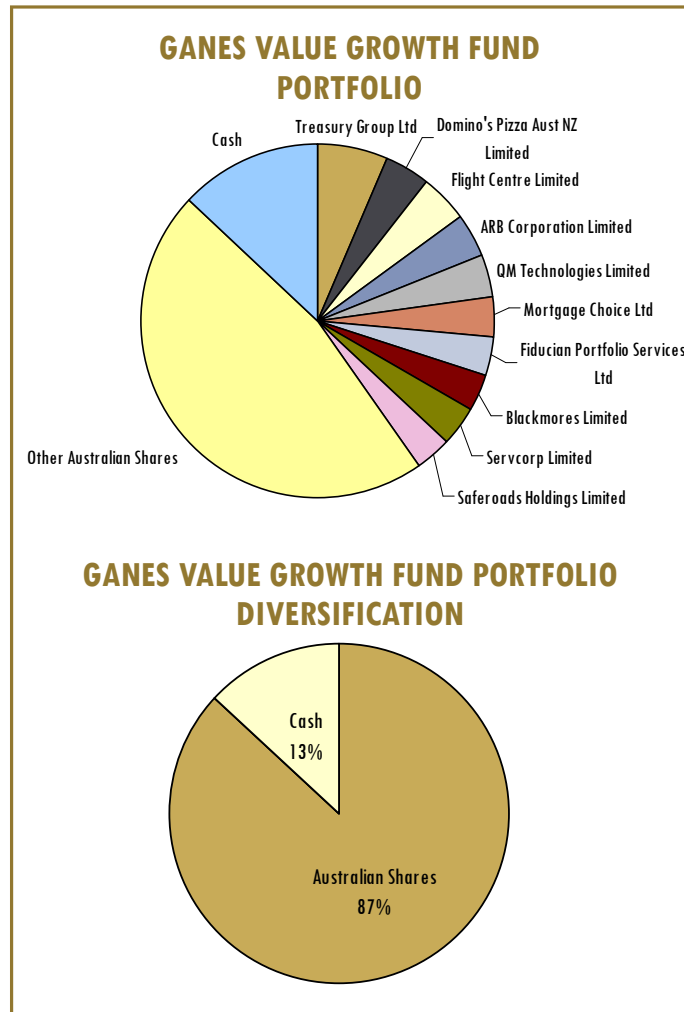

The strongest performance from our top ten stocks came from Domino's Pizza, which ran up 21% on the back of a positive company announcement regarding their ongoing European expansion. We view the share price movement as premature. First half and full year profit for the current year are expected to be sharply down on the prior year and the full benefits of their foray into Europe are not expected for perhaps another two years or more. A positive sales and profit update from four wheel drive accessory company, ARB, pushed the share price up 7.9% to near \$4. Blackmores, also moved up 7.8%, but on absolutely no news.

The only change to the top ten holdings over the month was Sonic Healthcare (the tenth largest holding at the end of December), replaced by Saferoads and Goodman Fielder, principally on the back of share price movements.

Purchases during the month were focused on topping up existing holdings. Two non-core holdings were partially sold down during January. Both, Wilson Investment Fund and Premium Investors, are listed investment companies that were purchased around one year ago when they were trading at a significant discount to their after-tax asset backing. Both have recorded significant share price increases (and paid dividends) that have moved their price up to around net asset backing. Having held the stock disposed for twelve months, unitholders will be entitled to receive the 50% capital gains tax discount.

At month end, the portfolio comprised 35 stocks that accounted for 87% of the fund's value. February will be a busy month for us, as we sift through an avalanche of company half year reports looking for growing, profitable businesses to add to the portfolio.

Officium Capital Limited, previously known as Western Pacific Asset Management Limited, provides access to some of Australia's most highly-credentialed value-investing fund managers all under one roof. Officium Capital has created a stable of value-investing funds by using a combination of in-house and outsourced investment management. Officium Capital is the responsible entity of the Ganes Value Growth Fund.

Net Asset Value Unit Price	1.30742	n/a

GANES VALUE GROWTH FUND

The Ganes Value Growth Fund provides investors with exposure to a unique portfolio of Australian listed companies that will provide growth and income to investors over the longer-term. It is their meticulous approach to studying companies while taking into account the macro-level drivers of Australian business that make Ganes such a capable investment firm.

Ganes investment methodology comprises both quantitative and qualitative analysis commonly called fundamental analysis. This research process ensures that financial ratios and measures are used to demonstrate that the company produces superior returns, while also making experienced judgements about the underlying strength of the business and the talent of its management team.

The team at Ganes often refer to the following quote as an insight into their investment strategy:

"If you are a prudent investor or sensible businessman, will you let Mr. Market's daily communication determine your view of a \$1000 interest in the enterprise? Only in case you agree with him or want to trade with him. You may be happy to sell out to him when he quotes you a ridiculously high price, and equally happy to buy from him when his price is low. But the rest of the time you will be wiser to form your own ideas of the value of your holdings, based on full reports from the company about its operations and financial position." - (extract from *The Intelligent Investor* by legendary investor Ben Graham)

The Ganes Investment Philosophy distills down to paying a reasonable price for a growing quality business, and therefore is a process based on individual stock selection to generate superior returns. A 'typical' investment in the portfolio is a profitable, growing business with an easily understood business model that can be purchased at a price that will deliver, in the opinion of Ganes, a superior return over the medium to long term.

With an attractive investment opportunity identified, Ganes will allocate 1 to 2 percent of the fund's assets to an initial purchase, then over time build a larger stake in the business as comfort levels increase with the business and its management. Holdings will be added to, reduced, or sold entirely as changes in the underlying economics of the business, market pricing, or Ganes' assessed value of the company occurs.

ABOUT THE FUND MANAGER

Ganes Capital Management Ltd was founded in 2002 by Dr. Clive Gaunt and Mr Wayne Jones as a privately-owned boutique fund manager based in Brisbane, specialising in the management of investments in the Australian equities markets. The name 'GANES' is derived from the manager's surnames, GAunt and joNES.

Clive has a Ph.D from the Queensland University of Technology, a Masters of Financial Management from the University of Queensland and a Bachelor of Business from the Brisbane College of Advanced Education. Clive has held various academic positions including Senior Lecturer in Finance at the University of Queensland Business School. His stockmarket research has been published in national and international peer reviewed journals and, for several years, wrote a monthly column for Shares magazine.

Wayne is a CPA (Certified Practising Accountant) and has a Bachelor of Business from Queensland University of Technology. He has extensive commercial experience in accounting and finance roles in both public and private companies, as well as writing for The Intelligent Investor investment newsletter covering a range of companies and investment issues.
