

GANES VALUE GROWTH FUND

The Fund recorded a negative performance for June of **-9.37%** on the back of a falling Australian sharemarket. Markets around the globe also fell during the month, however, financial service companies in particular fell sharply. Declines in financial services share prices can be attributed to fears about the impact on revenues and company profits from falling markets and concerns regarding a possible economic slowdown. End of financial year tax loss selling is also likely to have contributed to these falls.

Notable falls for the month impacting on Fund returns were financial service businesses Platinum Asset Management (-32%), Mortgage Choice (-23%), Australian Wealth Management (-25%) and Treasury Group (-20%), and amongst our industrial holdings McMillan Shakespeare (-24%), Flight Centre (-12%) and Cabcharge (-9%) all fell quite heavily.

During the month we continued to add to our larger holdings as prices fell with purchases in Australian Wealth Management, Flight Centre and McMillan Shakespeare. While this goes against the momentum of the market our investment approach is to identify businesses that we want to be part owners of, and to buy into them at prices that we think will generate a superior return over the medium to long term. Accordingly, we don't tend to sell on the back of falling share prices; indeed, we are more likely to add to our position, as we have done this month, which can exacerbate poor short-term performance. Overall the portfolio remains largely unchanged during the month.

Company reporting season is due to begin and will dominate our time during August. We expect companies in the portfolio to generally report a good 2008, but a lot of focus this year will be on the outlook for 2009 and 2010.

The Fund will pay a distribution of 1.54 cents per unit for the June quarter and we look forward to providing a more comprehensive review of the portfolio and the Fund's performance in our annual letter to unitholders in the coming weeks.

Performance Summary	Ganes Value Growth Fund	UBS Bank Bill Index
Since Inception p.a. (18/11/05)	2.59%	n/a

GANES VALUE GROWTH FUND

The Ganes Value Growth Fund provides investors with exposure to a unique portfolio of Australian listed companies that will provide growth and income to investors over the longer-term. It is their meticulous approach to studying companies while taking into account the macro-level drivers of Australian business that make Ganes such a capable investment firm.

Ganes investment methodology comprises both quantitative and qualitative analysis commonly called fundamental analysis. This research process ensures that financial ratios and measures are used to demonstrate that the company produces superior returns, while also making experienced judgements about the underlying strength of the business and the talent of its management team.

The team at Ganes often refer to the following quote as an insight into their investment strategy:

"If you are a prudent investor or sensible businessman, will you let Mr. Market's daily communication determine your view of a \$1000 interest in the enterprise? Only in case you agree with him or want to trade with him. You may be happy to sell out to him when he quotes you a ridiculously high price, and equally happy to buy from him when his price is low. But the rest of the time you will be wiser to form your own ideas of the value of your holdings, based on full reports from the company about its operations and financial position." - (extract from *The Intelligent Investor* by legendary investor Ben Graham)

The Ganes Investment Philosophy distills down to paying a reasonable price for a growing quality business, and therefore is a process based on individual stock selection to generate superior returns. A 'typical' investment in the portfolio is a profitable, growing business with an easily understood business model that can be purchased at a price that will deliver, in the opinion of Ganes, a superior return over the medium to long term.

With an attractive investment opportunity identified, Ganes will allocate 1 to 2 percent of the fund's assets to an initial purchase, then over time build a larger stake in the business as comfort levels increase with the business and its management. Holdings will be added to, reduced, or sold entirely as changes in the underlying economics of the business, market pricing, or Ganes' assessed value of the company occurs.

ABOUT THE FUND MANAGER

Ganes Capital Management Ltd was founded in 2002 by Dr. Clive Gaunt and Mr Wayne Jones as a privately-owned boutique fund manager based in Brisbane, specialising in the management of investments in the Australian equities markets. The name 'GANES' is derived from the manager's surnames, GAunt and joNES.

Clive has a Ph.D from the Queensland University of Technology, a Masters of Financial Management from the University of Queensland and a Bachelor of Business from the Brisbane College of Advanced Education. Clive has held various academic positions including Senior Lecturer in Finance at the University of Queensland Business School. His stockmarket research has been published in national and international peer reviewed journals and, for several years, wrote a monthly column for Shares magazine.

Wayne is a CPA (Certified Practising Accountant) and has a Bachelor of Business from Queensland University of Technology. He has extensive commercial experience in accounting and finance roles in both public and private companies, as well as writing for The Intelligent Investor investment newsletter covering a range of companies and investment issues.
