

GANES VALUE GROWTH FUND

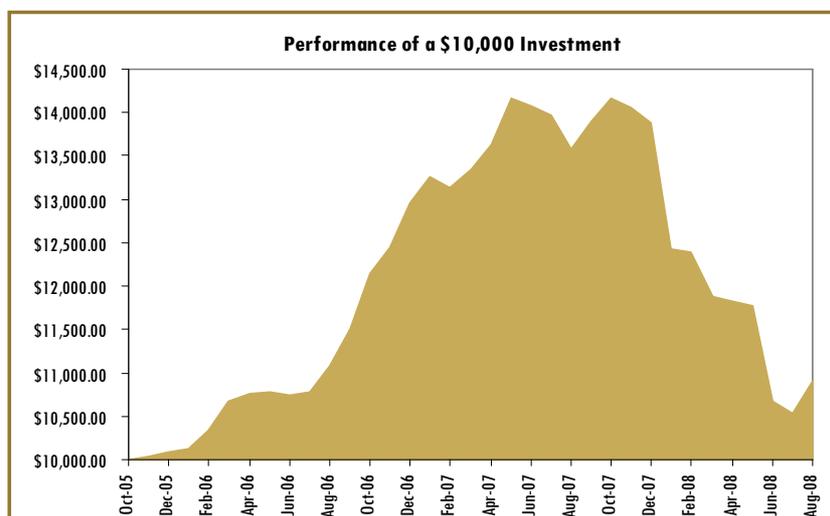

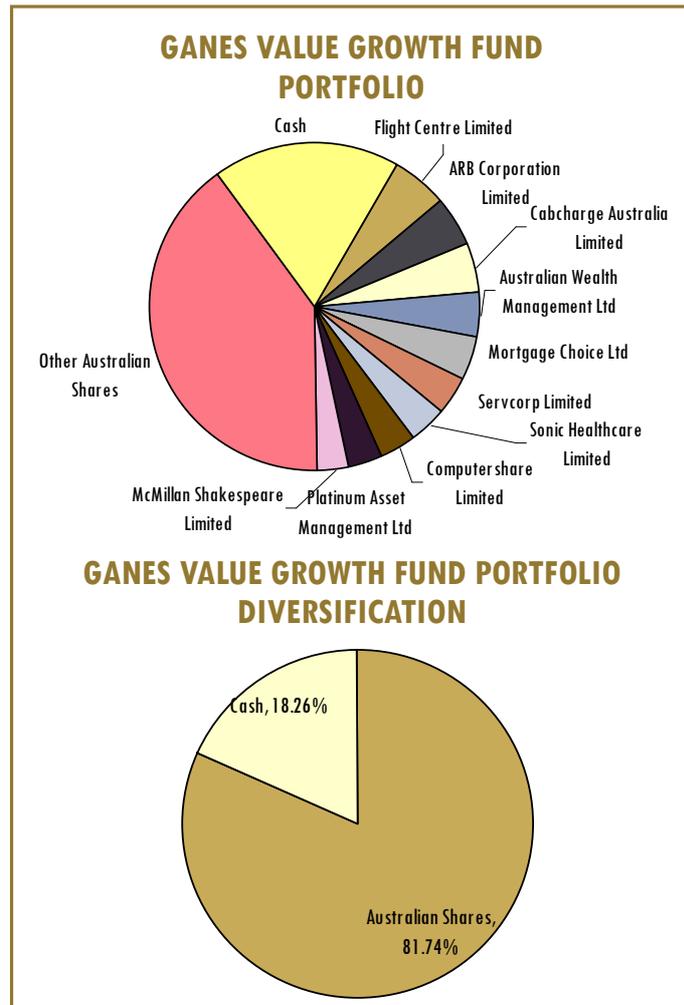

The Fund recorded a welcome return of 3.5% for August as reporting season for most Australian companies was completed. While most of the 2007/08 results were in line with forecasts it was the forecasts for 2009 that most analysts were focussed upon.

We were quite pleased with the results from a number of our larger holdings. ARB Corporation, Servcorp and McMillan Shakespeare all recorded strong results. The ARB and Servcorp results were particularly pleasing given the impact the strong Aussie dollar has had on dampening profits from their overseas operations.

McMillan Shakespeare, a company we have continued to purchase during the recent market turmoil, and now part of our top 10 holdings, reported a 31% increase in net profit to \$17.4m. The company's core business is the administration of salary packaging services and fleet management for employees of public servants, not-for-profit institutions, and large public and private companies. Since 2004, when the company listed, the business has achieved strong growth with profit increasing from less than \$1m to the recently reported \$17m in 2008, and earnings per share likewise increasing from 1.5c to 25.5c this year.

Notable rises for the month were McMillan Shakespeare (+20%), Servcorp (+11%) and ARB Corporation (+8%) all on the back of their strong results. Cabcharge, one of our largest holdings, fell 10% during the month as it missed earnings forecast and amid fears that taxi docket factorers are gaining market share in Sydney and Melbourne markets.

During the month we continued to add to our holding in McMillan Shakespeare which saw it move in to our top 10 holdings. During the month we sold our Corporate Express holdings and we also reduced our holding in Domino's Pizza. The European expansion remains the cornerstone for Domino's growth, however, in the current market it looks expensive against other companies with similar growth profiles and we decided to reduce our exposure in favour of better priced companies.

Performance Summary	Ganes Value Growth Fund	UBS Bank Bill Index
Since Inception p.a. (18/11/05)	3.22%	n/a

GANES VALUE GROWTH FUND

The Ganes Value Growth Fund provides investors with exposure to a unique portfolio of Australian listed companies that will provide growth and income to investors over the longer-term. It is their meticulous approach to studying companies while taking into account the macro-level drivers of Australian business that make Ganes such a capable investment firm.

Ganes investment methodology comprises both quantitative and qualitative analysis commonly called fundamental analysis. This research process ensures that financial ratios and measures are used to demonstrate that the company produces superior returns, while also making experienced judgements about the underlying strength of the business and the talent of its management team.

The team at Ganes often refer to the following quote as an insight into their investment strategy:

"If you are a prudent investor or sensible businessman, will you let Mr. Market's daily communication determine your view of a \$1000 interest in the enterprise? Only in case you agree with him or want to trade with him. You may be happy to sell out to him when he quotes you a ridiculously high price, and equally happy to buy from him when his price is low. But the rest of the time you will be wiser to form your own ideas of the value of your holdings, based on full reports from the company about its operations and financial position." - (extract from *The Intelligent Investor* by legendary investor Ben Graham)

The Ganes Investment Philosophy distills down to paying a reasonable price for a growing quality business, and therefore is a process based on individual stock selection to generate superior returns. A 'typical' investment in the portfolio is a profitable, growing business with an easily understood business model that can be purchased at a price that will deliver, in the opinion of Ganes, a superior return over the medium to long term.

With an attractive investment opportunity identified, Ganes will allocate 1 to 2 percent of the fund's assets to an initial purchase, then over time build a larger stake in the business as comfort levels increase with the business and its management. Holdings will be added to, reduced, or sold entirely as changes in the underlying economics of the business, market pricing, or Ganes' assessed value of the company occurs.

ABOUT THE FUND MANAGER

Ganes Capital Management Ltd was founded in 2002 by Dr. Clive Gaunt and Mr Wayne Jones as a privately-owned boutique fund manager based in Brisbane, specialising in the management of investments in the Australian equities markets. The name 'GANES' is derived from the manager's surnames, GAunt and joNES.

Clive has a Ph.D from the Queensland University of Technology, a Masters of Financial Management from the University of Queensland and a Bachelor of Business from the Brisbane College of Advanced Education. Clive has held various academic positions including Senior Lecturer in Finance at the University of Queensland Business School. His stockmarket research has been published in national and international peer reviewed journals and, for several years, wrote a monthly column for Shares magazine.

Wayne is a CPA (Certified Practising Accountant) and has a Bachelor of Business from Queensland University of Technology. He has extensive commercial experience in accounting and finance roles in both public and private companies, as well as writing for The Intelligent Investor investment newsletter covering a range of companies and investment issues.
